⁴Department of Pharmacology, Shri Bherulal Pharmacy Institute, Indore, India

⁵Faculty of Pharmacy, Philadelphia University, Amman, Jordan

OUTLINE

13.1 Introduction	460	13.3.5 Flexibility of Polymer	463
13.2 Polymers Used in Drug Delivery System	461	13.3.6 Hydrogen Bonding	464
13.3 Mucoadhesive Polymers: Emerging Class of Novel Polymers	462	13.4 The Concept, Factors Affecting, and Theories of Mucoadhesion	464
13.3.1 The Molecular Weight of the Polymer	463	13.4.1 Electronic Theory	465
13.3.2 Polymer Chain Length	463	13.4.2 Wetting Theory	465
13.3.3 Viscosity and Polymer Concentration	463	13.4.3 Cohesive Theory	466
13.3.4 The Degree of Cross-Linking and Degree of Swelling	463	13.4.4 Adsorption Theory	466
		13.4.5 Diffusion Theory	466
		13.4.6 Mechanical Theory	467
		13.5 Chitosan as a Mucoadhesive Polymer	468
