Introduction:

The novel corona virus or COVID-19 first emerged in Hubei province of China in mid November 2019 and within months spread to other parts of the world resulting in lakhs of deaths and massive damage to livelihoods and economies of many countries. (First COVID-19 case, 13.3.2020) It came to India from China and by the end of January 2020 first case was reported in India in Thrissur, Kerala and the second case in early February 2020 was also from Kerala. Both these patients were students in China and had come home from there. (Mukesh Rawat, 12.3.2020)

Measures Taken by Indian Government Affecting Poor and Rural Population:

- The ministry issued a 24X7 helpline number for any query on corona virus.
- States and Union Territories were asked to review their preparedness to prevent

and control COVID 19 and also to plug any gaps in areas such as surveillance, laboratory support infection prevention and control, logistics, risk communication. (First case of corona, 30.1.2020)

- On 20th March 2020 PM Narendra Modi announced 21 days lockdown to stop spread of COVID- 19.
- The government introduced the Aarogya Setu mobile application to educate citizens about COVID- 19 and help them make informed decisions amid the crisis.
- 83 million (8.3 crore) women of below poverty line families covered under Ujjwala scheme got free LPG cylinders for 3 months.
- Under the National Social Assistance Programme, Rs 14000 millions (1,400 crore) were disbursed to about 28.2 million (2.82 crore) elderly, widows and disabled people as one-time ex-gratia amount of INR 1,000 in two installments
